## Education

**Shree R.K.Patel BCA College**

*Bachelor of Computer Applications*

**2021-2024**

*Kadi, Gujarat*

## Relevant Coursework

- Database Management System
- Object Oriented Programming
- Computer Networks
- Web development

## Professional Experience

### Internship | Orionik Technology

- 5-month experience in Front-End Development

### Internship | Unbit Technologies

- 3-month experience in Web Development

## Projects

### PORTFOLIO | *HTML CSS Javascript* | GitHub

- \* Crafted a personal portfolio website to showcase my skills, projects, and experiences, highlighting my expertise in web technologies.
- \* Optimized for all devices with a fully responsive layout.
- \* Sections dedicated to About Me, Projects, and Contact Information.
- \* Featured projects with interactive images and descriptions.
- \* Integrated contact form for user outreach.
- \* Smooth animations and transitions for enhanced user engagement.
- \* Ensured mobile compatibility by leveraging Bootstrap's grid system and media queries for an adaptive layout.

### E-LEARNING PLATFORM | *HTML CSS Javascript* | GitHub

- \* Developed a dynamic e-learning platform designed to foster an engaging online learning experience, incorporating interactive features to enhance usability.
- \* Fully responsive design optimized for mobile-first approach.
- \* Clean design focused on providing relevant educational content.
- \* Enhanced usability by utilizing JavaScript for dynamic content loading and CSS Flexbox to improve layout responsiveness.

### FURNIRO | *HTML CSS Javascript ReactJS Tailwind CSS* | GitHub

- \* Developed a fully functional e-commerce platform for furniture sales, focusing on creating a seamless and intuitive shopping experience with a modern look.
- \* Comprehensive product listings with detailed images and descriptions.
- \* Advanced search and filtering functionalities.
- \* Mobile and desktop compatible, ensuring a consistent shopping experience.
- \* Addressed performance issues by optimizing React components and incorporating state management for real-time content updates and fast interactions.

### WEATHER APP | *HTML CSS Javascript React Js* | GitHub

- \* Created an interactive weather application that provides real-time weather data for any city, displaying temperature, humidity, and wind speed via an API integration.
- \* Real-time weather updates based on user input.
- \* Essential weather details such as temperature and wind speed.
- \* Robust error handling for invalid inputs and API response issues.
- \* Leveraged React state management to improve performance and manage asynchronous API requests efficiently.

## Technical Skills

**Programming Languages:** C, JavaScript, SQL

**Development Tools:** VScode, POSTMAN

**Framworks:** ReactJs, NodeJS, Express

**Database:** MongoDB, MySQL

**Version Control :** Git, Github

**Soft Skills :** Communication, Teamwork, Leadership, Continuous Learning
